

UNIPRIME CNS is a machine to automatic creation of transverse cuts on strips or plates made of foamed plastics. The depth of the cut is adjustable to adapt the proces for the desired effect.

| MACHINE SIZE | | INPUT MATERIAL'S PARAMETERS | |
|------------------|---------|-----------------------------|-----------------------|
| LENGTH | 2705 mm | MATERIAL TYPE | PE, PP, EVA, XPE FOAM |
| WIDTH | 3625 mm | LENGTH MAX | n/d |
| HEIGHT | 1750 mm | WIDTH MAX | 2000 mm |
| WEIGHT | 1800 kg | HEIGHT MAX | 50 mm |
| ELECTRICAL POWER | 4 kW | DENSITY MIN-MAX | n/d |

UNISTAR

| Technical parameters | |
|----------------------|--|
| Cut width | 100 mm 200 mm |
| Cutting | Circular knife - HSS |
| Knife sharpener | Yes, automatic |
| Pneumatic pressure | 5 bar |
| Components producers | HIWIN, SIEMENS, METALWORK |
| Manual language | Customer's national language |
| Compliance with | <u>Directives</u> EC 2006/42 EC 2014/30 EC 2014/35 <u>Standards</u> EN ISO 12100 EN ISO 14120 EN 60204-1 EN ISO 13849-1 EN ISO 13850 EN ISO 4414 |

Automatic knife sharpener provides extended lifespan and keeps high cutting quality in every single cycle

Settable knives allows you to convert the product according to your needs
